

The screenshot shows a LaTeX editor interface with a dark theme. The left sidebar displays a file explorer with a project structure including 'Use-Case.png', 'v_model_matevika.JPG', 'inhalt', 'Anforderungen', 'Anforderungsanalyse.tex', 'Erhebung.tex', 'entwurf_component.png', 'Entwurf.tex', 'Grundlagen.tex', 'Hauptteil.tex', 'Implementierung.tex', and 'Integration.tex'. The 'Integration.tex' file is selected and highlighted in green.

The main editor area shows the content of 'Integration.tex'. It contains two sections: `\subsection{Integration}` and `\subsection{Vorgehensweise}`. The text describes the integration process, mentioning the use of the `\ref` command to link to other parts of the document. The `\ref` command is used to reference the 'Vorgehensweise' section, which is located in the 'Vorgehensweise' file.

On the right side, there is a preview window showing the rendered LaTeX document. It displays the 'Table of Contents' (Table 1) and a table with three rows and two columns. The first column contains the text 'Vorgehensweise' and the second column contains the text 'Seite 10'. The table is titled 'Table 1: Inhaltsverzeichnis'.
